FINANCING FARMER.

The farmer's business often needs a little extra financial backing, if it is to grow and prosper. That is one reason why he should have a strong and willing bank behind him.

It is an important function of this Bank to give temporary assistance to farmers who seek it of us, and who have demonstrated their ability to pay obligations when due.

The best way to establish a credit here is to carry an account with us, and we cordially invite not only the farmers, but everyone who wants to gain ground financially, to do so.
